

EDUCATION & SCREENING

PAST EVENTS

At community events, our Think Liver Think Life® team provides engaging, hands-on education about liver health and wellness. We connect with liver patients, their families, and the broader community to share the programs and resources offered by American Liver Foundation, and include a free, family-friendly activity for children and adults to enjoy.

The screenings listed below were conducted by TLTL clinical partners and were available only to established patients who were uninsured or underinsured. These screenings were not open to the public.
